- 7) Right click "ANT USB Stick 2" and choose Properties Driver Update driver.
- 8) You will be asked if you would like to search the drivers online or browse for the driver in the computer. Choose the second option (browse from the computer) and choose the path where you extracted the driver files in step 4 and click Ok. The driver should update now and the watch should be recognized by the computer.
- 9) Driver installation should be completed successfully!
